

# The Law of Chain Reactions

Stephen W. Shives

## **The Law of Chain Reactions is this:**

If you do \_\_\_\_\_, something is going to happen.

## **Common Mistakes:**

Putting too much confidence in \_\_\_\_\_.

Fact: Things will change. (weather, government, finances)

Allowing your \_\_\_\_\_ to determine your future.

Allowing a little \_\_\_\_\_ to distract you from the bigger plan.

## **Making the Chain Work for You:**

- Identify a \_\_\_\_\_: How did I get here?  
(a phone call, a previous job, bankruptcy...)

This reminds you that everything has a place in the big picture.

- Capitalize on the opportunity you have \_\_\_\_\_.  
*Take responsibility for the highest use of your time.*

The key to the scripture, “To whom much is given, much is required.” is not to skip the requirement to get to “much”.

- \_\_\_\_\_, because you don't know all of the facts.  
*Things are going on behind the scenes that you may not be aware of right now.*
- Work with \_\_\_\_\_: It can work for you or against you.
